

Architecture 1600–2000: Art and Architecture of Ireland

ART AND ARCHITECTURE OF IRELAND is an authoritative and fully illustrated survey that encompasses the period from the early Middle Ages to the end of the 20th century. The five volumes explore all aspects of Irish art from high crosses to installation art, from illuminated manuscripts to Georgian houses and Modernist churches, from tapestries and sculptures to oil paintings, photographs and video art. This monumental project provides new insights into every facet of the strength, depth and variety of Ireland's artistic and architectural heritage. ARCHITECTURE 1600-2000 The most complete survey of architecture in Ireland ever published. The essays in this volume cover all aspects of Ireland's built environment, not only buildings but infrastructure, landscape development, public and private construction and much else. The volume challenges and expands the traditional understanding of Irish architecture, giving novel and exciting interpretations of the field and, by means of many striking illustrations, encourages us to think anew about the environment that surrounds us.
