In this volume were going to focus on some advanced skills and learn new stitches. My hope for this volume is to increase your confidence and help you find your creativity. Like all the volumes in this series I must give credit to my mother and my grandmother who started me at a tender age learning fiber arts. Both of them sparked a love of knitting, crochet, embroidery, quilting, and sewing that I still have today. I have passed these onto my daughter and hope she continues the tradition with her children. This book contains proven steps and strategies on Advance Knitting. Knitting is very therapeutic. You can focus on your pattern and watch your creation appear right before your eyes as you work your needles and yarn. I have to say that I have spent many hours enjoying the satisfaction and peace knitting has brought me. In this volume Ive shared some advanced techniques and stitches to expand your skills. Part of being an advanced knitter is constantly learning new stitches and techniques and incorporating them into your work. The information I am going to share with you is just the tip of the iceberg and you can always find new ways to increase your knitting knowledge and skill. Never stop learning and exploring the world of knitting!
