

Nuclear Reaction (Executioner)

NECESSARY RISKS Mack Bolan is searching for suitcase nukes in the treacherous backcountry of Pakistan. The deadly weapons are being developed by internal factions determined to vaporize neighboring India. It's a suicide mission one Bolan takes on with deadly determination. Aiding a group of dissidents committed to stopping a deeply rooted conspiracy that could lead to the annihilation of the Indian subcontinent, Bolan adjusts his angle of attack as a relentless enemy races ahead on their doomsday timetable. But in a part of the world where an international shouting match can turn into mutually assured destruction, all the Executioner needs is for his enemy to make one critical mistake.
