

Grinnell in Vintage Postcards (Postcard History Series)

From an abolitionist hotbed to the home of a prestigious liberal arts college, Grinnell, Iowa, is known across the country as a jewel of the prairie. Originally conceived as a Congregationalist utopia, Grinnell developed a reputation as a highly-educated community with a wealth of incredible architecture. It was also a turn-of-the-century industrial hub, despite a population of less than 5,000, where buggies, early automobiles, and gloves were made. The historic postcards in this book recall a community on the verge of transition, from a small agriculture-based town on the prairie to a thriving center of commerce and higher education. They provide a remarkable glimpse of the buildings that make up what is now a Historic Commercial District on the National Register of Historic Places. Still others are visual reminders of great buildings—both in the community and on the Grinnell College campus—that now exist only in memory.
