

## Tom Sachs

This comprehensive survey of the work of the young and influential American sculptor Tom Sachs is the first of its kind, and long overdue. Sachs appropriates elements from American popular culture, including fast food, skateboarding and hip-hop music, and mixes them with overt references to luxury fashion labels, as well as icons of Modernist art and design. Even as Sachss work maintains an overt antagonism toward consumerism and globalization, it reveals an inherent idealism, championing transparency of production and homespun craftsmanship. Produced on the occasion of the artists solo exhibition at the Fondazione Prada, Milan, this book illustrates the prolific and innovative nature of Sachss career, highlighting his fascination with weapons, conformity, cultural imperialism and craft.
