

Venetian Evenings

Venetian Evenings is James Lees-Milne's personal portrait of a city he had known for sixty years. In eleven elegant essays the eminent historian dwells on as many of the city's most beautiful or remarkable buildings, each of which represents an era in the architecture of Venice. From Torcello, the cradle of Venice, to the glistening mosaics in the cavernous cathedral of St Marks; from the jewelled intimacy of Santa Maria dei Miracoli to the grandeur of Palladio's masterpiece, San Giorgio Maggiore; from the clustered domes and towers of Santa Maria della Salute to the theatrical Baroque of the Gesuiti - all these are encompassed in this erudite and absorbing tour through centuries of Venetian art and history. Venetian evenings are all too brief, but in this volume, a companion to his acclaimed Roman Mornings, James Lees-Milne captures the charm of the moment with a clarity that lingers well into the night and long in the memory.
