

Peter Meyers a Moulins Engilbert (French Edition)

The sculptures of Peter Meyers are not what we would call beauty for beauty's sake. Not the perfect creature, not the perfect ballerina, not the clone, we don't see them here. The sculptures of Peter Meyers show the figures as they are. Not only the outer body but also the inner body - their soul. The sculptures show the emotion and the tension of the figures. The essence of the figure is analysed and translated into a sculpture by the artist in the most skilful way. The body language, the personality, everything is here in metal sheets, you just forget about it, so subjective are the sculptures. Not only is the metal form subjective but also the spaces in between. The metal form creates that impression.
