

The Baby Trap

I loved the snappy writing style of **THE BABY TRAP**. The story frequently had me laughing out loud. Anyone who has dealt with fertility issues will tell you its about disappointment and loss, the death of a dream. But there is plenty of living left to be done and thats what Sibel Hodge does best in **THE BABY TRAP** -- Chick Lit Central This is comedic chick-lit gold! -- Lilac Wolf and Stuff Based on her own experiences with infertility and two attempts at IVF, Sibel Hodges latest novel **The Baby Trap** will have you laughing and crying at the ups and downs of modern baby-making... When Gina turns thirty-three her body clock unexpectedly begins clanging in her ear with annoying persistence. The only problem is, having a baby isnt as easy as she thought. Whether shes feng shui-ing the house to death with fertility symbols, throwing out her husbands tight boxers in favour of baggies, swapping wine and chocolate for green tea and yams, popping fertility drugs like M&Ms, or having sex so precision-timed it makes international warfare manoeuvres look unorganized, her life is turned upside down. And when nothing seems to be working, her quest for the B-word turns into an obsession. Can Gina stay sane, get pregnant, and keep her marriage together? Or will her baby trail become a baby trap?
