

Portals: Energy Flow Photography Series II & III

Portals continues Ravarours quest for transcendental representation in the Fine Art Photographic form as begun in Lightforms, 2001-2007. [Available from Xlibris: ISBN 978-1-4257-9113-1.] Both series utilize Ravarours Energy Flow System of the Arts as a template for creating Energy Flow Photography, a system he has applied to art making for four decades. Portals evokes patterns of dynamic interactions of energy and light evocative of theories of physics, elemental patterning, and as portals to symbolic states of being. Ravarours Energy Flow Photographs are actual photographs that are made inside the camera the moment the image is made.
