

Offas Dyke South (National Trail Guides)

Offas Dyke Path is the 177 mile National Trail following the course of the man made dyke that gives it its name. This volume, now fully updated, features the southern section of the Path, following Natural Englands acorn waymarks from Chepstow to Knighton, a distance of 80 miles. This is the complete, official guide for the long distance walker or the weekend stroller. All you need is this one book. National Trail Guides are the official guidebooks to the fifteen National Trails in England and Wales and are published in association with Natural England, the official body charged with developing and maintaining the Trails.
