

## Bryan Art

The self-titled album for Altafaan Records with the illustrious combination guests Queen Ifrica, Warrior King, Capleton, and Hawkeye is a masterpiece! - Bryan Art is the multifaceted artist, a husky voiced singer on his own, a witty songwriter for sure (he also wrote songs for Etana, Luciano, George Nooks) and a consummate musician as a one time member of the Firehouse Crew and also bandleader for Bushmans backing band! When we hear the term Love song we naturally think of a song expressing romance or like sentiments, leaving out songs of freedom, peace, motivation, hope, unity etc. that seek to caringly point people in positive directions. A classic example is the great reggae anthem, One Love by the Hon. Robert Nesta Marley. In fact, the music of Joseph Hill, Dennis Brown, and Jimmy Cliff, on which many Jamaicans grew up, preached so much love that it appreciably became one of the defining factors of the reggae genre.
