

## Style File: A Visual Vocabulary of Middle Eastern Dance Costume

Style File is a compact dictionary of the specialty terms associated with Middle Eastern dance costuming. This concise visual guide is an invaluable reference tool for dance students, teachers, and belly dance costume designers. Over fifty beautifully illustrated original drawings are supported by easy to understand text that identifies the garments and accessories unique to our dance form. Covering high-glamour bedlah to earthy folkloric, tribal fusion to historical reproductions, each style is broken into its component parts. From assuit to zarzouzi, this handy book is a must for the reference library of Middle Eastern belly dancers who want to push past the basic cabaret costume.
