

# Location Lighting Solutions: Expert Professional Techniques for Artistic and Commercial Success (PDN Pros)

From assignment to finished project--how did they get that shot? Location Lighting Solutions presents the real-world projects of more than 25 top photographers, then shows how they were created. Readers see the original assignment, then follow the steps along the road to arriving at the perfect resolution: the successful final photograph. Both commercial and editorial approaches to corporate, architectural, advertising, conceptual and sci-fi photos, cars, people, and more, all on location, are covered in this practical guide. Step-by-step illustrations and lighting diagrams, plus the words of the photographers themselves, reveal the clients objectives, the logistics and challenges of the location, lighting and other techniques used to get the picture, digital manipulation, styling, equipment, postproduction, and everything else needed to produce the final stunning results. Creative problem-solving approach to commercial and editorial work step-by-step lighting information for pros with ideas for amateurs, too Tips on locations, styling, digital manipulation, equipment, and more
