

## Sawdust and Solitude

With illustrations. The memoirs of a circus animal trainer. Cooper writes in the Preface to a Life: A powerful woman, both in physique and in the mental dominance which became apparent with the first glance at her clear-cut features, her tight-fitting costume of high-laced Roman boots, black silk tights, Hussar coat of black and gold, revealing the Junoesque proportions of a body which instinctively reminded one of the fabled Amazons...Such was Zora when I first saw her, a woman who gave hint of certain mysteries, outstanding among her feminine companions of the circus, eaten by ambition, yet caring nothing for its reward, jealous of her position as the star performer of a tremendous organization yet dreaming constantly of the day when she could leave it far in the background and become a nonentity upon a patch of ground, with the applause departed, the music of the bank stilled forever, the glare and the glamour gone.
