

Sub-Mariner: The Depths #1 (of 5)

When a deep sea expedition mysteriously vanishes without a trace near the Marianes trench, legendary adventurer, Randolph Stein embarks on a journey that will rock him -- and his crew -- to their very core. Travelling deep into the dark belly of the sea, the men of the good ship, Voyager, are about to see things that defy description, that supersede their wildest imagination -- things that men arent meant to see.
