

Suicide Risk #5

When super-power slinging dealers Jed and Hailey find Ada -- a kind-hearted, if downtrodden mother of two -- she had been watching her life fall apart in slow motion decades now, with no hope of putting it back together. Life having primed her for Jed and Haileys Faustian bargain, Ada finds herself at the moral crossroads -- finally have the freedom from crushing responsibility, or keep her beleaguered family together? And whats stopping her, if she really thinks about it, from just having...both? A stand-alone tale perfect for new readers.
