

Guernsey Pictorial Directory and Strangers Guide

This book also consists of- active table of contents- authors biography- transcribers note- illustrationsThe Guides hitherto tendered the public, having in some measure fallen short of furnishing the Stranger with a just notion of the island and its interior beauty, from want of illustration and leisure for natural observation; the Author of the following desultory pages, flatters himself by simplicity of arrangement, utility of matter, and a few tail-pieces strongly illustrative of native scenery, to introduce a bearing towards the same: and here it is but just to remark that his daily memoranda during his temporary sojourn has been the chief source of his information, which, if deemed of sufficient importance to attract the attention of strangers, he solicits for it that candour, which he has some right to claim when he labours for the welfare of others, and is anxious only for the information of the visitor.
