Together we will learn all about yarn, crochet hooks and equipment, basic stitches One work of advice (okay so more than one word I can go on a bit) take your time. Be patient with yourself and if you make a mistake dont fret. I still have to rip out stitches and sometimes if I have a new pattern that is complex I may have to work it two or three times to get it right. No one is perfect, and after all youre just learning. We all are no matter what our skill level may be. After all these years Im still learning new stitches and new ways to do things so dont think you have to know everything at once. Also dont tackle a huge project when youre just starting out. Start with small simple projects so you can build your confidence and practice your skills.
