

Star Trek: Leonard McCoy - Frontier Doctor

His friend James T. Kirk has been promoted to Admiral, the U.S.S. Enterprise is in space dock for a refit, so McCoy is on his own as a member of the Frontier Medics Program in this collection of lively tales written and illustrated by John Byrne. Share the adventure as Bones confronts a mysterious plague on a distant world, contends with his growing distaste for the transporter, fights a virus that just might be smarter than he is, and wrestles with a dilemma that cuts to the very heart of his Hippocratic Oath.
